

DOMOPS Awareness and Assessment Response Tool (DAART)

OPERATIONAL APPROACH

- Concurrent input/display both from and to DoD Active / National Guard forces and Civil Agencies
- Combining Shared Situational Awareness (SSA) with mission planning/tracking capabilities
- Usable by all levels of Federal, State, Local, Territorial & Tribal (FSLT&T) partners
- Approved for use on NIPRNet, DoD Networks & Internet
- Approved for use by Joint, Interagency, Intergovernmental and Multinational (JIIM) partners and agencies
- Modern web-based architecture implementation; no software download or install required
- Centrally hosted, URL access for distributed users, including mobile devices & smartphones
- Government-owned, non-proprietary solution

CUMULATIVE EFFECT

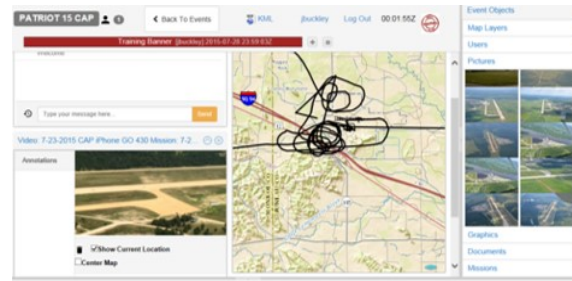

- Expanded total force collaboration
- Greater access & distribution of DOMOPS/DSCA information
- Promotes user focus on analysis and operations

Simultaneous Sharing of Situational Awareness/Common Operational Picture (COP), Full Motion Video (FMV), Geospatial, Imagery and Command Information for the Operational and Incident Awareness & Assessment (IAA) Communities

DAART delivers improved Operations/IAA product collection, analysis and dissemination, shared situational awareness and decision support data to and from all Operations/IAA mission stakeholder organizations and individuals. DAART encompasses the entire software tool suite developed by the U.S. Army Space and Missile Defense Command (USASMDC) Space and Missile Defense Center of Excellence (SMDCoE) Prototyping & Experimentation (P&E) Branch for the National Guard Bureau (NGB) as a free-to-use service in support of multiple mission areas including IAA, National Guard Civil Support (NGCS), Defense Support to Civil Authorities (DSCA), Battle Command and Geospatial Information Services (GIS) Operational support.

The DAART capability exposes and distributes C2/IAA/GIS/COP data and provides services at enterprise, desktop, and mobile user levels for all levels of JIIM participation encompassing FSLT&T organizations. Net-Centric capabilities include FMV Production, Analysis & Dissemination (PAD) for IAA missions, Collaboration & planning tool exposure, analysis, Mapping services, and Interoperability gained through migration away from a “box system” approach to an architecture built around web services.

DAART Web Portal (<https://daart.us>)

These services include:

- | | | |
|--|--|---------------------------------|
| • FMV/Still Imagery PAD | • Significant Events | • KML/KMZ/Rest Service Ingest |
| • Still Photography | • Smart Tracks/BFT | • Staff Synchronization Tools |
| • Space Imagery | • Collaboration Tools | • Task Organization Development |
| • Chat (Event/Private/Group) | • Banner/Audio Alerts | • File Storage |
| • Mission Tracking | • Friendly Forces Personnel, Logistics and Communications Status | • Training Tools |
| • SPOTREP Development | • Infrastructure Data | • Helpdesk/On-Line Support |
| • GIS/COP Data Ingest | • Opns Activity Alerts | |
| • Briefing Generation | • iPhone/iPad/Android Native App | |
| • RFI/SITREP Management | | |
| • DoD/DHS/Civil Source Data Interoperability | | |
| • Force SSA | | |

DAART Products/Support

Quick Start

2017 Government Achievement Award Winner

DAART can be accessed on NIPRNet/Internet at <https://daart.us>

Your initial visit will require you to register as described below.

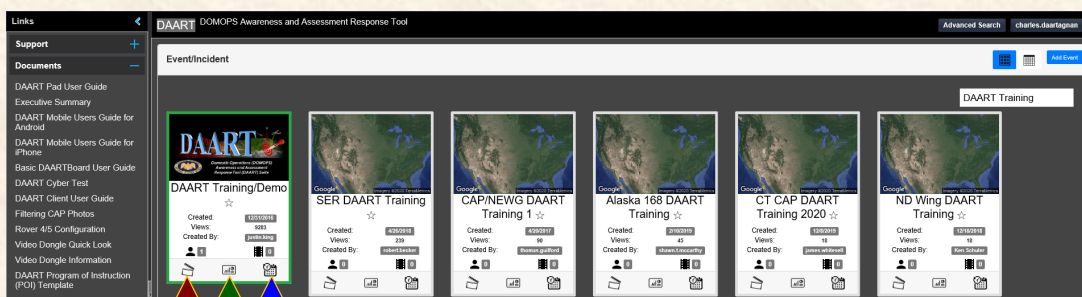

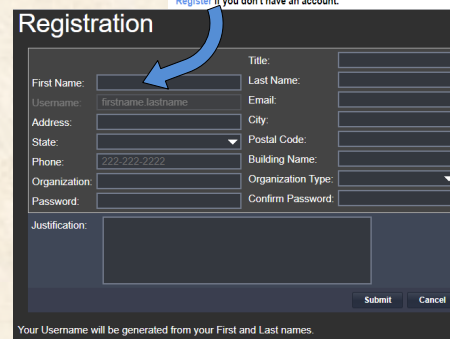

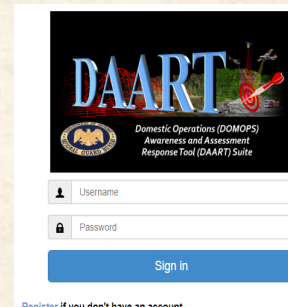

Registration Procedure

1 Point your Internet browser to <https://daart.us> to go to the DAART "Sign In" page. Click the 'Register' link to bring up the Registration page.

2 At the Registration page, complete all the fields (per Army security requirements, all fields must be filled in) and click the 'Submit' button. Your username will be automatically generated and displayed on the next screen (please make a note of it). Continue through the registration process. Once registration is complete, an email notification for account approval will be sent to your State/Agency Manager.*

*Note: You will not be able to log into DAART until your State/Agency Manager approves your account. After you have received an email notifying you that your account has been approved, navigate back to the "Sign In" page and log in with your Username and Password.

3 Once you are logged in, the DAART Suite Landing Page will be displayed. This is the gateway to DAART events, supporting documentation, and links to the other DAART support products.

DAARTPad: IAA Product Development/Dissemination
DAARTBoard: Operations Synchronization/Execution
DAARTPlan: Collection Management Planning/Execution

On subsequent logins, you'll be taken directly to the DAART Suite Landing Page, from which you can open Events/Incidents in DAARTPad, DAARTBoard, or DAARTPlan. Clicking the *Documents* panel on the left side of the page will bring up a collection of printable (PDF format) Users Manuals. The *Training* panel offers training materials for a variety of event/incident scenarios. Smartphone apps are available on the *Downloads* panel.

Questions about DAART? Please contact us at any time:
